**Product code: N001**

**Availability: 15**

**Price: R1,788.28**

#### **Description**

Raceworx Premier MTB Hydraulic Brake MTB hydraulic oil brake, excellent performance, excellent modulation and feel. Mineral oil/ Bh59 Weight: Front about 343g, Rear about 360g Both 51 mm ? 74mm post mounting Front 800mm hose, Rear 1400mm hose Calliper: Forged aluminium body Rotor Sizing: Calliper compatible with 140/160/180mm rotors. Pistons are made of high-quality metal. It fundamentally eliminates the possibility of piston chipping, along life durability. Why should I change or upgrade If you have used old brakes, you know that when you hold the brake lever and push the body forward and backward, the brake pads will move and make a noise. This is a very annoying problem. Readily available replacement pads from Raceworx or most bike shops in your country. Classic design, maintenance simple, easy bleeding. It does not require any special tools.
